

## Pal-Tec Pallet Dispenser

### OVERVIEW

Palomat Pallet Dispensers are designed for storing and dispensing pallets into work areas where forklift access is limited and continuous pallet supply is required.

Model PAL20

### FEATURES

- ✓ Fully automatic PLC controlled
- ✓ Automatic pallet dispense/stack sensors
- ✓ Front load and dispense - back access available
- ✓ One touch Panel for alternating between stacking and destacking
- ✓ Fully automatic photo sensor pallet detect
- ✓ Quality German made unit, compact design

### BENEFITS

- ✓ Create forklift free zones
- ✓ Pallet truck access
- ✓ Eliminate manual handling of pallets & manual handling injuries
- ✓ Increase workplace productivity
- ✓ Efficient pallet storage, reducing space occupied by short pallet stacks
- ✓ Reduces pallet damage caused by manual handling
