

Pal-Tec Pallet Straightener

OVERVIEW

The Australian designed and manufactured Pallet Wedge is used for straightening stacks of standard Australian Chep or Loscam style pallets. Aligning pallets side-to-side and front to back, this pallet wedge can be used indoors or outdoors and requires no power. Feeling uneasy about using the wall or a structural support column to straighten pallets? In just seconds the Optimum Pal-Tec Pallet Straightener can make sure a stack of pallets is perfectly squared and ready to go.
